Session Fees

- Fees may fluctuate, from time to time, based on how busy I am or the specifics of the client requests, for instance adding an animal to a shoot complicates the shoot and it usually takes longer so I adjust the fee accordingly. The same goes for multiple people--group photos are harder to get right because everyone has to have their eyes open at the same time, etc.
- When contacting me give me some specifics on what it is that you want to do or the look that you want to achieve and I will provide you with an estimate.
- If you are unsure of what you want to do tell me that as well and I will discuss and/or share options, styles, themes, etc. and we'll come up with something for you.
- My session fees are low compared to other professional photographers in the area. Yes, there are photographer's that charge less—but if you are coming to me it is because of my style and quality of photography.
- I do not claim to be the best! My work speaks for itself. Every photographer has a unique style.
